

INDEX OF SUBJECTS¹

- "acerola"
 a *Cercospora* leaf spot, 114
 conversion of radioactive carbon dioxide and glucose, 109
 karyotype of the blue chrysolimid, 17
 acid (See dichlorophenoxy-acetic; gibberellic; indole-3-acetic; invertase; phosphatase.)
 acid invertase
 action patterns in sugarcane, 39
 hydrolytic proteins of sugarcane, 27
 in vitro effects of silicon, 50
 acid phosphatase
 gel filtration studies of sugarcane, 35
 hydrolytic proteins of sugarcane, 26
Aedes taeniorhynchus
 seasonal variation at Isla Verde, 87
Amazonas (Brazilian)
 chromosome number in solanaceous fruit, 129
 Ametryne
 influence on soil phytotoxicity, 101
 amylase
 action patterns in sugarcane, 40
 effects as regulator on immature sugarcane, 31
 hydrolytic protein in sugarcane, 28
Angiostrongylus cantonensis
 effect on blood picture of rats, 84
 in rats in **San Juan**, 83
 anions
 response of bananas to proportions of cations and anions, 91
 annatto
 nature of vitamin A activity in seeds, 172
 antibodies
 antibody titers of dairy heifers, 144
Arundo donax
 identification of silica content, 96
 ascorbic acid
 relationship to radioactive substance, 109
 relationships on immature cane, 38
-
- ¹ Scientific names are printed in *italics*, common Spanish names in roman type with quotations, names of orders, sub-orders and higher groups in CAPITALS, names of families and sub-families in SMALL CAPITALS and locality names in **boldface type**.
- variation content in lettuce and carrot, 85
Asparagus officinalis
 inheritance of green color, 93
 Atrazine
 influence on soil phytotoxicity, 101
 aucuba-mosaic
 in **Puerto Rico**, 11
Avena sativa
 inheritance of chlorophyll mutant, 2
 azauracil
 6-azauracil and gibberellic acid effects on sugarcane, 49
 B carotene
 variation of content in lettuce and carrot, 85
 bacteria
 hemagglutination by phytopathogens, 124
 vaccination of heifers with staphylococcal toxoid, 144
 bagasse
 comparison with conventional ration for feeding dairy cows, 140
 bananas
 control of Sigatoka with oil sprays, 68
 radiation effect on corms, 64
 response of Gros Michel variety grown in sand culture, 91
 banded chlorosis
 in **Puerto Rico**, 104
 Bayamón sandy clay
 magnesium an important nutrient in pineapple, 90
 beetles
 spermatogenesis of some scarabaeoid beetles, 189
Belonolaimus lineatus
 new species of nematode, 158
 beta-glycerophosphate
 sucrose-enzyme relationships in immature sugarcane, 30
 bibliography
 of nematodes of the American tropics, 181
 of *Rotylenchulus reniformis*, 60
Bixa orellana
 nature of vitamin A activity in seeds, 172

- blackstrap molasses (See molasses.)
- blight
testing for foliar blight resistance, 163
- blood
effect of *Angiostrongylus* in rats, 84
- BOH
induction of flowering in bromeliads, 80
- boron
sucrose-enzyme relationships in immature sugarcane, 30
- bromeliads
induction in flowering by BOH, 80
- brown stripe
disease of sugarcane, 15
- buds
factors influencing development in *Dioscorea* spp., 89
- Buffel grass
acceptability and comparison trials, 147
- Cajanus cajan*
studies in cross-pollination, 4
- calcium
effect of variable calcium in sugarcane, 52
sucrose-enzyme relationships in immature cane, 30
- California tobacco virus
transmission of tobacco rattle virus, 62
- calves
prevention of coliform diarrhea, 145
- canning
chironja in sections, 66
- cannula
for rumen fistula, 57
- carbon dioxide
conversion of radioactive material, 119
- carcass
quality of swine slaughtered, 55
- Catalina (soil)
influence on cation exchange capacity, 122
- cations
response of bananas to proportions of cations and anions, 91
- carrots
variation in content of β carotene and ascorbic acid, 85
- cassava (starch)
inexpensive laboratory method for extraction, 98
- cattle
comparison of concentrate mixture, 138
feeding heifers, 139
feeding lactating dairy cows, 140
Q-fever studies in dairy cattle, 161
- Cenchrus ciliaris*
acceptability trials of buffel grass, 147
- centipede (grass)
use of pre-emergent herbicides, 152
- centromeres
karyotype differentiation in *Trox*, 130
- Cephalocoema vittata*
chromosome numbers, 18
- Cercospora*
leaf spot of acerola, 114
- charcoal
activated charcoal in rum processing, 16
- chicken
indoor water pits for manure disposal, 154
- chironja
canning in sections, 66
chromosomes, 188
- chloroethanol
effect on *Dioscorea alata*, 81
- chlorophyll
mutant, inheritance in oats, 2
- chlorosis
banded chlorosis occurrence in **Puerto Rico**, 104
- chromosomes
in chironja, 188
lowest number in COLEOPTERA, 190
number in *Cephalocoema vittata*, 18
- chrysomelid
karyotype of blue chrysomelid beetle, 17
- Cialitos (soil)
influence on cation exchange capacity, 122
- citrus
comparative anatomy, 164
- clay
characterization of clay-organic complexes, 118
effects of diuron in sugarcane grown on clay soils, 46
iron oxide content in Mabí clay, 121
magnesium as a nutrient in sandy clay, 90

- climate
 influence on sapogenin yields, 111
- coffee
 comparison of two pruning methods, 187
 correlations in varieties, 174
 effect
 of planting distances, 151
 of liming and fertilization on yields, 6
 of various factors on intensively managed coffee, 173
 of yields, shade and varieties, 7
 grafted and ungrafted coffee trees, behavior, 176
 productivity of varieties grown in sun and shade, 5
 response
 to magnesium in sun-grown coffee, 92
 to major nutrients and lime, 150
 solar energy for drying coffee, 126
 weed control by premergence herbicides, 88
 yield response in two latosols, 149
- Co 60
 effect of cobalt 60 gamma radiation on corn pollen, 153
- COLEOPTERA
 karyotype of blue chrysolimid, 17
 lowest chromosome number, 190
- Columnaris (coffee)
 correlations in coffee varieties, 174
- corn
 effect of gamma radiation on pollen, 153
- cowpea
 mosaic disease, 12
- cross-pollination
 in pigeonpeas, 3
- CTVR
 transmission of California tobacco rattle virus, 62
- CRUSTACEA
 of *St. Croix*, checklist, 65
- cubfu
Solanum sessiliflorum, chromosome number, 129
- cucumbers
 fertilizer trials, 142
 yield after treatment with nematocide, 125
- cyanide
 relationships in immature sugarcane, 38
- cysteine
 relationships in immature sugarcane, 38
- cytochrome C oxidase
 oxidizing enzyme of sugarcane, 34
- cytology
 of *Digitaria valida*, 191
- dairy cattle (See cattle.)
 comparison of concentrate mixtures, 138
 Q-fever studies on dairy cattle, 161
- dehydration
 effect on storage and packing of pigeonpeas, 133
- diarrhea
 coliform, in calves, 145
- dichlorophenoxy-acetic acid
 2,4-dichlorophenoxy-acetic acid as a foliar spray, 21
- dieback
 of mango, in **Puerto Rico**, 53, 54
- Digitaria valida*
 behavior, genetics and cytology, 191
 embryo sac development, 128
- Dioscorea*
 influence of soil and climate on sapogenin, 111
 virus disease of *Dioscorea* sp., 162
- Dioscorea alata*
 effect of chemicals on germination and yield, 81
- Dioscorea composita*
 effect of fertilizers on sapogenin yield, 82
 factors influencing vegetative bud development, 89
- Dioscorea floribunda*
 factors influencing vegetative bud development, 89
- Diplodia*
 perfect stage in dieback of mango, 53
- diseases (animal)
 plastic cannula for rumen fistula, 57
- diseases (plant)
 acuba-mosaic virus of tomatoes, 11
 banded chlorosis in sugarcane, 104
 brown stripe disease of sugarcane, 15
 California tobacco rattle virus, transmission, 62
Cercospora leaf spot of acerola, 114
 dieback of mango, 53, 54
 diseases of papaya in the **Virgin Islands**, 67

- factors in development of tobacco-mosaic virus, 105
- Helminthosporium stenospilum* in sugarcane, 103
- mosaic disease
of cowpea, 12
of watermelon at **Lajas Valley**, 13
- pepper-mosaic virus, wild host, 14
- Sigatoka control by oil sprays, 68
- testing for foliar blight resistance, 163
- virus disease of *Dioscorea* sp., 162
- distillery slops
as soil-aggregating agent, 120
effect on stability of soil aggregates, 116
use in soil reclamation, 117, 119
- Diuron
effects of Diuron and sucrose in sugarcane, 43
effects on sugar production and enzyme activity, 46
influence in soil phytotoxicity, 101
residual effects on ratoon sugarcane, 51
- eggs
breeding egg-laying poultry strains, 156
- electric
electrical resistance units for determining soil moisture, 69
- electrophoresis
electrophoretic behavior of invertase in sugarcane, 37
- embryo
embryo-sac development in *Digitaria*, 128
- enzyme
abnormal activity in nutritional stress in sugarcane, 44
behavior governing starch and sucrose in sugarcane, 24
changes in leaf-sugar content and enzyme activity, 21
cytochrome C oxidase in sugarcane, 34
effects
of amylase and invertase, 31
of calcium and manganese on sugarcane enzyme, 52
of Diuron on enzyme activity in sugarcane, 46, 51
of tungsten and molybdenum on enzymes, 29
hydrolytic proteins, Q enzyme, 25
peroxidase: oxidizing enzyme of sugarcane, 32
physiological studies of enzymes in sugarcane, 23
relation of activity with gibberellic acid and nitrate, 45
response of 6-azauracil and gibberellic acid, 49
sucrose-enzyme relationships in sugarcane, 19, 30, 36, 38
tyrosinase, oxidizing enzyme of sugarcane, 33
- enzymology
studies in two sugarcane varieties, 47
- Erimochloa ophiouroidea*
use of herbicide, 152
- ethyl methanesulphonate
relationship in germination and vigor in oats, 1
- fallow
as a practice for nematode control on tomatoes, 182
- fertilizers
effects
of liming and fertilization on coffee, 6
of phosphorus in grasses, 86
on sapogenin yields in *Dioscorea*, 82
fertilizer-yield relationship, 72
filter-press cake in tomato yields, 63
response in plantains in steep latosol, 77
response of white sorghum to nitrogen levels, 184
trials with cucumbers and tomatoes, 142
yield response in two coffee cultivars, 149
- filler tobacco
response to planting dates, 10
- filter-press cake
influence on tomato yields, 63
- fistula
plastic cannula for rumen fistula, 57
- foliar application
gibberellic acid and silicon effects, 48
of chemicals in sugarcane, 21
of phosphorus in sugarcane, 157
- foliar composition
effects of liming and fertilization in coffee, 6
- forages
digestibility studies in rumen fermentation, 56
relationships in proteins, 58

- fruit juices
 factors affecting stability of vitamin C, 134
 vitamins in canned material, 59
- fumigant
 soil fumigant for tobacco seedbeds, 106
- fungi
 diseases of papaya in the **Virgin Islands**, 67
 studies on the genus *Vibrissia*, 168
- genetics
 of *Digitaria valida*, 191
- giant Pangola
 comparison with other grasses as a pasture, 146
 embryo-sac development, 128
- giant-reed
 identification of silica, 96
- gibberellic acid
 effect on sugarcane
 as foliar application, 48
 with 6-azauracil, 49
 interrelationships in sugar production, 45
- glucose
 conversion in acerola, 109
- grafts
 comparison between grafted and ungrafted coffee, 176
- grasses (See forages.)
 effect of phosphorus fertilization, 86
 Pangola used in crop rotation, 61
 productivity of intensively managed pastures, 78
- Gros Michel
 response of bananas in sand cultures, 91
- guava
 stone cell removal from nectar, 169
 variation in chemical composition of leaves, 148
- Guinea grass
 acceptability and comparison trials, 147
 response of irrigation and nitrogen levels on yields, 183
- heifers
 comparison of feed for growing heifers, 141
 effect of vaccination with toxoid, 144
 feeding in dry lot, 139
 growth studies in Holstein heifer calves, 179
- Helminthosporium stenospilum*
 cultural variants in sugarcane, 103
- hemagglutination
 by bacterial pathogens, 124
- hens
 suppression of hearing sense, 155
- herbicides
 as pre-emergent in centipede grass, 152
 influence on soil phytotoxicity, 101
 premergence in weed control in coffee, 88
- Hippelates pusio* complex
 predators and parasites in **Puerto Rico**, 100
- Holstein
 growth studies in heifer calves, 179
- honey-berry
 selections of *Melicocca bijuga* in **Puerto Rico**, 95
- Hoplostaimus portoricensis*
 new species described, 136
- house-fly
 parasitic regulatory agents in **Puerto Rico**, 99
- hydroxylamine
 relationships to immature cane, 38
- indole-3-acetic acid
 foliar application on sugarcane, 21
- inhibitors
 use of acid phosphatase in sugarcane, 22
- INSECTA
 a genus and two species new to **Puerto Rico**, 112
 karyotype of blue chrysolimid, 18
 lowest chromosome number in COLEOPTERA, 190
 natural control of *Musca domestica* in **Puerto Rico**, 99
 predators and parasites of *Hippelates*, 100
 seasonal variation of *Aedes taeniorhynchus*, 87
 spermatogenesis in scarabaeoid beetles, 189
 vectors of *Lecythis elliptica*, 97
- invertases (See acid invertases.)
 electrophoretic behavior in sugarcane, 37
 regulator effect on sugarcane, 31
- ion-exchange
 comparison of systems in juice purification, 177
 reverse-cycle ion exchange in purification, 178

- iron (See iron oxide.)
 sucrose-enzyme relationships in immature cane, 30
 sucrose-sugar relationships in immature cane, 38
- iron oxide
 content in Mabí clay, 121
 influence on cation exchange capacity, 122
- irrigation
 effect
 on yields of grasses at **Lajas Valley**, 183
 on yield and quality of tobacco, 71
 response of white sorghum, 184
- juices (See fruit juices.)
- Kudzu
 effects of irrigation and nitrogen on yields, 183
- latosol
 response of plantains to fertilization, 77
 yield response of two coffee cultivars, 149
- lawns (See centipede grass.)
- lead
 sucrose-enzyme relationships in immature cane, 30
- Lecythis elliptica*
 insect vectors, 97
- lettuce
 variation in content of carotene and ascorbic acid, 85
- Leucaena*
 yield trials in **U. S. Virgin Islands**, 115
- Leucocera laevicollis*
 karyotype of the blue chrysomeid, 17
- lime
 effect
 of different levels on coffee, 150
 on coffee yields, 6
 on soil acidity, 9
 on yield response by coffee cultivars, 149
- Mabí clay
 iron oxide content, 121
- magnesium
 nutrient in pineapple production, 90
 response on sun-grown coffee, 92
- maleic hydrazide
 foliar spray on sugarcane, 21
- manganese
 effect on sugarcane, 52
- Mangifera indica* (See mango.)
- mango
 dieback disease in **Puerto Rico**, 53, 54
- manure
 chicken manure disposal, 154
- Melicocca bijuga*
 selections in **Puerto Rico**, 95
- methyl bromide
 preparation of tobacco seedbeds for fumigation, 106
- Merker (See Napier grass.)
- mites
 two new species reported from **Puerto Rico**, 113
- molasses
 comparison with other feed for heifers, 141
 stability of affected soil aggregates, 116
 use on reclamation of a saline-sodic soil, 117, 119
- molybdenum
 effects on sucrose content and enzymes in sugarcane, 29
 sucrose-enzyme relationships on immature sugarcane, 30
- mosaic
 factors in development of tobacco-mosaic virus, 105
 of cowpeas in **Puerto Rico**, 12
 of watermelons at **Lajas Valley**, 13
 presence of tomato aucuba-mosaic, 11
- mulch
 black plastic mulch in tomato production, 94
- Musa sapientum*
 radiation effects, 64
- Musca domestica*
 parasitic regulatory agents in **Puerto Rico**, 99
- Na²²
 relation to plants, 70
- Napier (grass)
 or Merker grass, acceptability trials, 147
- nectars
 factors affecting stability of vitamin C, 134, 135
 stone cells removal from guava nectar, 169
 vitamin content in canned material, 59

- nematocides
 response of sugarcane to nematocide applications, 160
 yield of cucumbers after treatment, 125
- nematodes
Belonolaimus lineatus, new species, 158
 bibliography of nematodes of American tropics, 181
 control by rotation with Pangola grass, 61
 CTVR transmission by *Trichodorus*, 62
 fallow for nematode control in tomatoes, 182
Hoplolaimus portoricensis, new species, 136
 immunity of sugarcane to reniform nematode, 159
 pH values on survival of *Rotylenchulus*, 131
 plant nematode problems in American tropics, 181
 response of nematode populations to nematocides, 160
 studies on *Rotylenchulus reniformis*, 60
- nitrate
 effect
 on immature sugarcane, 19
 on sugarcane in sand culture, 24, 43
 interrelationships in sugar production, 45
- nitrogen
 effect
 on sucrose content of ratoon sugarcane, 167
 on yields of grasses at Lajas Valley, 183
 white sorghum response, 184
 yield response of coffee cultivars, 149
- nucleotides
 effect of calcium and manganese in nucleotides, 52
 of sugarcane, TCA and protein-bound, 41, 42
- oats
 inheritance of chlorophyll mutant, 2
 relationship to ethyl methanesulphonate, 1
 sterility in M_3 lines, 3
- oil
 sprays used for Sigatoka control, 68
- ORTHOPTERA
 chromosome number in *Cephalocnema vittata*, 18
 Pangola (grass) (See *Digitaria valida*.)
 as rotation crop, 61
 comparison with other grasses, 146
Panicum maximum
 Guinea grass, acceptability, 147
 papaya
 fungus diseases in Virgin Islands, 67
 Para grass
 effect of irrigation and nitrogen on yields, 183
 parasites
 of *Hippelates pusio* complex in Puerto Rico, 100
 of *Musca domestica* in Puerto Rico, 99
Pennisetum purpureum
 Napier grass, acceptability, 147
 pepper
 mosaic, virus in wild host, 14
 peroxidase
 oxidizing enzyme of sugarcane, 32
 pH
 values on survival of nematodes, 131
 phosphate
 effect on sugarcane in sand culture, 24
 phosphorus
 effect on productivity of grasses, 86
 in foliar application on sugarcane, 157
 yield response by two coffee cultivars, 149
 phosphorylated hexose
 synthesis and hydrolysis in sugarcane, 23
 photoperiodism
 effect on pigeonpea improvement, 143
Physalospora rhodina
 responsible for dieback in mango, 53
 pigeonpea
 cross-pollination studies, 4
 effect
 of photoperiodism in improvement, 143
 of storage and packing, 133
 pigs
 early weaning, 73
 relationships of weight at different ages, 75
 pineapple
 magnesium important nutrient in sandy clay, 90

- Pangola as a rotation crop, 61
 use of pollen fertility in breeding, 137
- pits (See water pits.)
- plantain
 comparative characteristics of two cultivars, 171
 development of flakes, 132
 effect of populations and distribution on yields, 76
 preharvest changes in physical and chemical properties, 170
 response to fertilization, 77
- pollen
 effect of irradiation on corn, 153
 in pineapple breeding, 137
- polyphenol oxidase (See tyrosinase.)
- potassium
 effect on immature sugarcane, 19
 yield response in two coffee cultivars, 149
- poultry
 breeding egg-laying poultry strains, 156
- predators
 of *Hippelates pusio* complex in **Puerto Rico**, 100
- prometryne
 influence on soil phytotoxicity, 101
- proteins
 acid invertase, 27
 acid phosphatase, 26
 amylase, 28
 effect of amylase and invertase on content, 31
 hydrolytic proteins of sugarcane, 25, 26, 27, 28
 protein-bound nucleotides of sugarcane, 41
 Q-enzyme, 25
 relationships in some forages, 58
- pruning
 comparison of two methods in coffee, 187
- Psidium guajava*
 chemical variation in leaf composition, 148
- Puerto Rican (coffee variety)
 correlation in yield and morphological characters in coffee varieties, 174
- Q-enzyme
 hydrolytic proteins of sugarcane, 25
- Q-fever
 in dairy cattle, 161
- radiation
 effect
 of Co 60 irradiation on corn pollen, 153
 on tomato yield, 64
 uptake and conversion of radioactive carbon dioxide, 109
- rainfall
 data used in Sigatoka control, 68
- rats
 effect of *Angiostrongylus* in blood picture, 84
 infected by *Angiostrongylus cantonensis*, 83
- reniform nematode
 host-range, distribution and bibliography, 60
 immunity of sugarcane, 159
- roots
 effect of salinity on development, 102
- Rotylenchulus reniformis*
 host range, distribution and bibliography, 60
 pH values in survival, 131
- rum
 activated charcoal in processing, 16
- rumen
 cannula for rumen fistula, 57
 digestibility data in some forages, 56
- salinity
 effect on sugarcane culture, 102
 reclamation of a saline-sodic soil, 117
- sand culture
 effect
 of calcium and manganese on sugarcane, 52
 of diuron and nitrate, 43
 of nitrate and potassium, 19
 response of Gros Michel banana, 91
 variable nitrate and phosphate, 24
- sandy clay
 magnesium a nutrient in pineapple, 90
- sandy loam
 effect of diuron in sugarcane, 46
- sapogenin
 economics of yam as crop plant, 110
 effect of fertilizers on yields of *Dioscorea*, 82
 influence of soil and climate on yield, 111
- scarabs
 spermatogenesis of some scarabaeoid beetles, 189

- seedbeds
 - preparation of soil for fumigation, 106
- seeds
 - nature of vitamin A activity, 172
 - seeding rate response of white sorghum, 184
- shade
 - effect
 - on productivity in coffee, 5, 7
 - of shade trees on yields of five crops, 185
- Sigatoka
 - control by oil sprays, 68
- Signal (grass)
 - comparison with other grasses, 146
- silica
 - identification on giant reed, 96
- silicon
 - effect as a foliar application in sugarcane production, 48
 - enzyme-sugar relationships in immature sugarcane, 38
 - in vitro* effect on action patterns of sugarcane, 50
- slops (See distillery slops.)
- sodic soils
 - molasses and slops in reclamation, 119
 - reclamation studies, 117
- sodium (See Na²².)
- soils
 - aggregation in two tropical soils, 123
 - characterization of clay complexes, 118
 - effect
 - of diuron in sugarcane grown in different soils, 46
 - of soil acidity and liming in sugarcane, 9
 - of soil preparation for fumigation, 10
 - electrical resistance units in soil humidity, 69
 - fertilizer response on steep latosols, 77
 - influence of climate and soils on sapogenin, 111
 - influences on cation exchange capacity, 122
 - iron oxide content in Mabí clay, 121
 - phytotoxic action of herbicides, 101
 - reclamation of a saline-sodic soil, 117, 119
 - relationships of particle size to plasticity, 108
 - relative infiltration rate, 107
 - response to tillage of three soils in humid areas, 186
 - stability of treated soil aggregates, 116
- Solanum nigrum*
 - wild host of pepper-mosaic virus, 14
- Solanum sessiliflorum*
 - chromosome number, 129
- solar energy
 - in reducing coffee-drying costs, 126
- sorghum
 - response to irrigation under different nitrogen levels and seeding rates, 184
- South Africa**
 - behavior, genetics and cytology of two accessions of *Digitaria valida*, 191
- soybean
 - oilmeal compared with other mixtures, 141
- spermatogenesis
 - in some scarabaeoid beetles, 189
- spray
 - schedule of oil sprays based on rainfall data in Sigatoka control, 68
- starch
 - behavior of enzyme in sugarcane, 24
 - inexpensive method for cassava starch extraction, 98
 - sucrose-enzyme relationships in immature cane, 30
 - synthesis and hydrolysis in sugarcane, 23
- starter solutions
 - effect on tomato yields, 48
- St. Croix**
 - checklist of CRUSTACEA, 65
- sterility
 - in M₃ oat lines, 3
- stone cells
 - removal from guava nectar, 169
- strawberries
 - in central region of **Puerto Rico**, 175
- sucrose
 - behavior of enzymes and sucrose in sugarcane, 24
 - biosynthesis in sugarcane, 20
 - effect
 - of gibberellic acid and silicon, 48
 - of time of nitrogen application on content, 167
 - enzyme relationships in sugarcane, 19, 30, 36

- enzymes catalyzing synthesis and hydrolysis, 23
- high levels in nutritional stress in sugarcane, 44
- production in two sugarcane varieties, 47
- sugarcane
- changes in leaf-sugar content and enzyme activity, 21
 - effect
 - of diuron in sugar content, 51
 - of amylase and invertase upon content, 31
 - enzyme-sugar relationships, 38
 - gibberellic acid and nitrate in sugar production, 45
 - induction of varying sugar levels, 22
 - response to gibberellic acid and 6-azauracil, 49
- sugarcane (See baggase)
- action patterns
 - of acid invertases, 39
 - of sugarcane-leaf amylase, 40
- biosynthesis of sucrose, 20
- brown stripe disease, 15
- changes in leaf-sugar content and enzyme activity, 21
- controlled temperature and enzymology studies, 47
- cytochrome C oxidase, oxidizing enzyme, 34
- effect
 - of amylase and invertase, 31
 - of calcium and manganese on sugarcane, 52
 - of diuron on sugarcane, 45
 - of gibberellic acid and silicon, 48
 - of nitrate and potassium, 19
 - of nitrogen in sucrose content, 167
 - of residual diuron on ratoon sugarcane, 51
 - of salinity on growth, 102
 - of silicon *in vitro*, 50
 - of soil acidity and liming, 9
 - of tungsten and molybdenum, 29
 - of variable diuron and nitrate, 43
- electrophoretic behavior of invertases, 37
- factors as function of nutritional stress, 44
- gibberellic acid and nitrate in sugar production, 45
- handling of sugarcane trash, 165
- hydrolytic proteins, 25, 26
- induction in sugar levels by use of phosphatase, 22
- influence of leaves in chemical composition, 166
- immunity to reniform nematode, 159
- ion-exchange in juice purification, 177, 178
- nucleotides of sugarcane, 41, 42
- oxidase, enzyme of sugarcane, 32
- response of nematodes to nematocides in irrigation water, 160
- sucrose-enzyme relationships 19, 30, 36
- tyrosinase, oxidizing enzyme, 33
- variants of *Helminthosporium*, 103
- 6-azauracil and gibberellic acid on foliage, 49
- sunlight (See solar energy.)
- as factor in coffee productivity, 5
 - effect on coffee yields, 6
 - response to magnesium in sun-grown coffee, 92
- swine (See pigs.)
- carcass quality slaughtered at different weight levels, 55
 - evaluation of breeding lines, 74
- tanier
 - production, 8
- TCA
 - nucleotides of sugarcane, 41
- temperature
 - effect on development of tobacco-mosaic virus, 105
- Tephrosia vogelii*
 - foliar blight resistance, 163
- thiourea
 - effect on *Dioscorea alata*, 81
- tillage
 - effect on three typical soils in humid areas, 186
- tobacco (See filler tobacco.)
- effect on development of mosaic virus, 105
 - response to planting dates, 10
 - soil preparation for seedbed fumigation, 106
 - yield and quality under irrigation, 71
- transmission of California tobacco rat-tle virus, 62
- tomatoes
 - aucuba-mosaic virus in Puerto Rico, 11

- effect of factors in virus development, 105
 evaluation of black plastic mulch, 94
 fallow, a control for nematodes, 182
 fertilizer trials in **Puerto Rico**, 142
 yields affected by filter press cake and starter solutions, 63
- trash (sugarcane)
 handling in humid areas, 165
- trees
 response of shade on yields of five crops, 185
- trichloroacetic acid
 sucrose-enzyme relationships in immature sugarcane, 30
- Trichodorus* (nematode)
 in transmission of California tobacco rattle virus, 62
- Trox*
 karyotype differences in centromere location, 130
- tungsten
 effect on sucrose and enzymes of sugarcane, 29
- tyrosinase
 oxidizing enzyme of sugarcane, 33
- utisol
 effect of soil acidity and liming on sugarcane, 9
- Valsyn Mix
 for prevention of diarrhea in calves, 145
- vertisol
 iron oxide content, 121
- vectors
 of *Lecythis elliptica*, 97
- Vibrissea* (fungi)
 studies on the sections *Apostemium* and *Microstemium*, 168
- Vigna sinensis*
 mosaic disease, 12
- Virgin Islands**
 fungus diseases of papaya, 67
 virus diseases (plants)
 California tobacco rattle virus, 62
 factors on development of tobacco-mosaic 105
 of a sapogenin-producing *Dioscorea* sp., 162
 presence of tomato-aucuba mosaic, 11
- vitamins
 in canned Puerto Rican juices and nectars, 59
- vitamin A
 activity in annatto seeds, 172
- vitamin C
 factors affecting stability, 134, 135
- watermelon
 mosaic disease at **Lajas Valley**, 13
- water pits
 for disposal of chicken manure, 154
- weaning
 early in pigs, 73
- weed killer (See herbicides.)
- weeds
 control by premergence herbicides in coffee, 88
- wetting agents
 effect on uptake by sugarcane foliage, 157
- white sorghum
 response to irrigation and nitrogen, 184
- yam
 economics of sapogenin-bearing yams in **Puerto Rico**, 110
 effect
 of chemicals on germination and yield, 81
 of cultural practices, 79
- zinc
 effect on development of tobacco-mosaic virus, 105
