

Index to volume 101 (2017)

SUBJECTS

J. Agric. Univ. P.R. 101 (2):253-258 (2017)

- Acarina
Checklist of the Acarina of Puerto Rico, 101 (SI #2), 61.
- Angular leaf spot
Pathogenic variability of *Pseudocercospora griseola* isolates from two provinces of Ecuador, 101 (1), 107. (Spanish)
- Anthonomus eugenii* Cano (See Pepper weevil)
- Ants
The scientific legacy of Juan A. Torres-Negrón, 101 (SI #2), 1.
- Arthropods
Contributions of entomologists and a taxonomical bibliography of insects and other arthropods in Puerto Rico, 101 (SI #2), 33.
Ecology of soil arthropod fauna in tropical forests: A review of studies from Puerto Rico, 101 (SI #2), 185.
- Beans
Pathogenic variability of *Pseudocercospora griseola* isolates from two provinces of Ecuador, 101 (1), 107. (Spanish)
- Beauveria*
Isolation of native entomopathogenic fungi with potential for control of the pepper weevil, *Anthonomus eugenii* Cano, in Puerto Rico, 101 (1), 91. (Spanish)
- Beef cattle
Comparing body dimensions between normal and double muscled Senepol heifers, 101 (1), 17. (Spanish)
Effect of chronological age and sex on tenderness and juiciness of beef cattle raised in Puerto Rico, 101 (1), 35. (Spanish)
Effect of sex and animal type on quality characteristics of beef from cattle with eight permanent incisors in Puerto Rico, 101 (1), 51. (Spanish)
- Biological control
Biological control of insect pests in Puerto Rico, 101 (SI #2), 153.
- Calories
Caloric contribution of imported and locally produced food in Puerto Rico, 101 (1), 121. (Spanish)
- Caribbean Basin
Entomological research status and perspective in the Caribbean Basin, 101 (SI #2), 203.
- Citrus greening
Performance of 'Tahiti' lime (*Citrus latifolia* Tan) grafted onto five citrus rootstocks in two production areas of Puerto Rico, 101 (2), 225. (Spanish)
- Citrus, rootstocks
Performance of 'Tahiti' lime (*Citrus latifolia* Tan) grafted onto five citrus rootstocks in two production areas of Puerto Rico, 101 (2), 225. (Spanish)
- Citrus* spp., trees
Diversity of endophytic bacteria from *Citrus* and *Inga* trees in the coffee agro-ecosystem and fluctuations by location, shade management and season, 101 (2), 165.
- Coffea arabica* L. (See Coffee)
- Coffee, shaded
Diversity of endophytic bacteria from *Citrus* and *Inga* trees in the coffee

- agro-ecosystem and fluctuations by location, shade management and season, 101 (2), 165.
- Consumers
 Analysis of the Family Markets in Puerto Rico, 2014, 101 (1), 143. (Spanish)
- Corn
 Nitrogen fertilizer rate for improving inbred maize (*Zea mays* L.) yield on the semi-arid southern coast of Puerto Rico, 101 (2), 185.
 Nitrogen levels and age at harvest and their effects on the nutritive value and fermentative characteristics of corn (*Zea mays* L.), 101 (1), 79. (Spanish)
- Crude protein
 Nitrogen levels and age at harvest and their effects on the nutritive value and fermentative characteristics of corn (*Zea mays* L.), 101 (1), 79. (Spanish)
- Demography
 Caloric contribution of imported and locally produced food in Puerto Rico, 101 (1), 121. (Spanish)
- Dietary guidelines
 Caloric contribution of imported and locally produced food in Puerto Rico, 101 (1), 121. (Spanish)
- Dry matter yield
 Nitrogen levels and age at harvest and their effects on the nutritive value and fermentative characteristics of corn (*Zea mays* L.), 101 (1), 79. (Spanish)
- Ecology
 Ecology of soil arthropod fauna in tropical forests: A review of studies from Puerto Rico, 101 (SI #2), 185.
- Ecuador
 Pathogenic variability of *Pseudocercospora griseola* isolates from two provinces of Ecuador, 101 (1), 107. (Spanish)
- Endophytic bacteria
 Diversity of endophytic bacteria from *Citrus* and *Inga* trees in the coffee agro-ecosystem and fluctuations by location, shade management and season, 101 (2), 165.
- Entomology
 Biological control of insect pests in Puerto Rico, 101 (SI #2), 153.
 Contributions of entomologists and a taxonomic bibliography of insects and other arthropods in Puerto Rico, 101 (SI #2), 33.
 Entomological research status and perspective in the Caribbean Basin, 101 (SI #2), 203.
 Foreword, Entomology Symposium, 101 (SI #2), i.
 Partial inventory of the insect species introduced in Puerto Rico from 1980 to 2015, 101 (SI #2), 165. (Spanish)
 The International Institute of Tropical Forestry: Antecedents and present influences on forest entomology in Puerto Rico, 101 (SI #2), 25.
 The legacy of Juan Torres to entomological knowledge in Puerto Rico, 101 (SI #2), 13. (Spanish)
 The scientific legacy of Juan A. Torres-Negrón, 101 (SI #2), 1.
- Entomopathogens
 Isolation of native entomopathogenic fungi with potential for control of the pepper weevil, *Anthonomus eugeni* Cano, in Puerto Rico, 101 (1), 91. (Spanish)
- Exogenous enzymes
 Evaluation of α -amylase and protease on diet nutrient intake and digestibility, and physiological parameters in lambs, 101 (1), 63. (Spanish)
- Family Markets
 Analysis of the Family Markets in Puerto Rico, 2014, 101 (1), 143. (Spanish)
- Farmers
 Analysis of the Family Markets in Puerto Rico, 2014, 101 (1), 143. (Spanish)

- Fastidious bacteria
 Diversity of endophytic bacteria from *Citrus* and *Inga* trees in the coffee agro-ecosystem and fluctuations by location, shade management and season, 101 (2), 165.
- Fermentation
 Nitrogen levels and age at harvest and their effects on the nutritive value and fermentative characteristics of corn (*Zea mays* L.), 101 (1), 79. (Spanish)
- Fertigation
 Pineapple growth and yield response to fertilizer and drip irrigation management, 101 (2), 203.
- Fertilization
 Nitrogen fertilizer rate for improving inbred maize (*Zea mays* L.) yield on the semi-arid southern coast of Puerto Rico, 101 (2), 185.
 Nitrogen levels and age at harvest and their effects on the nutritive value and fermentative characteristics of corn (*Zea mays* L.), 101 (1), 79. (Spanish)
 Pineapple growth and yield response to fertilizer and drip irrigation management, 101 (2), 203.
- Food marketing
 Analysis of the Family Markets in Puerto Rico, 2014, 101 (1), 143. (Spanish)
- Food security
 Caloric contribution of imported and locally produced food in Puerto Rico, 101 (1), 121. (Spanish)
- Forest, entomology
 The International Institute of Tropical Forestry: Antecedents and present influences on forest entomology in Puerto Rico, 101 (SI #2), 25.
- Forest, health
 The International Institute of Tropical Forestry: Antecedents and present influences on forest entomology in Puerto Rico, 101 (SI #2), 25.
- Forest, tropical
 Ecology of soil arthropod fauna in tropical forests: A review of studies from Puerto Rico, 101 (SI #2), 185.
- Forest Service, USDA
 The International Institute of Tropical Forestry: Antecedents and present influences on forest entomology in Puerto Rico, 101 (SI #2), 25.
- Fungi
 Isolation of native entomopathogenic fungi with potential for control of the pepper weevil, *Anthonomus eugeni* Cano, in Puerto Rico, 101 (1), 91. (Spanish)
 Pathogenic variability of *Pseudocercospora griseola* isolates from two provinces of Ecuador, 101 (1), 107. (Spanish)
- Geospatial analysis
 Geostatistical analysis for mapping soil salinity in the Lajas Valley Agricultural Reserve, Southwestern Puerto Rico, 101, (1), 1.
- GIS
 Geostatistical analysis for mapping soil salinity in the Lajas Valley Agricultural Reserve, Southwestern Puerto Rico, 101, (1), 1.
- Inga* spp., trees
 Diversity of endophytic bacteria from *Citrus* and *Inga* trees in the coffee agro-ecosystem and fluctuations by location, shade management and season, 101 (2), 165.
- Invertebrates, litter
 Ecology of soil arthropod fauna in tropical forests: A review of studies from Puerto Rico, 101 (SI #2), 185.
- Irrigation, drip
 Pineapple growth and yield response to fertilizer and drip irrigation management, 101 (2), 203.
- Insects (See Entomology)
- Invasive species
 Partial inventory of the insect species introduced in Puerto Rico from 1980 to 2015, 101 (SI #2), 165. (Spanish)

- Lajas Valley
 Geostatistical analysis for mapping soil salinity in the Lajas Valley Agricultural Reserve, Southwestern Puerto Rico, 101, (1), 1.
- Lime
 Performance of 'Tahiti' lime (*Citrus latifolia* Tan) grafted onto five citrus rootstocks in two production areas of Puerto Rico, 101 (2), 225. (Spanish)
- Maize (See Corn)
- Meat quality
 Effect of chronological age and sex on tenderness and juiciness of beef cattle raised in Puerto Rico, 101 (1), 35. (Spanish)
 Effect of sex and animal type on quality characteristics of beef from cattle with eight permanent incisors in Puerto Rico, 101 (1), 51. (Spanish)
- Microbial diversity
 Diversity of endophytic bacteria from *Citrus* and *Inga* trees in the coffee agro-ecosystem and fluctuations by location, shade management and season, 101 (2), 165.
- Mites
 Checklist of the Acarina of Puerto Rico, 101 (SI #2), 61.
- Musculature, double
 Comparing body dimensions between normal and double muscled Senepol heifers, 101 (1), 17. (Spanish)
- Nitrogen, fertilization
 Nitrogen fertilizer rate for improving inbred maize (*Zea mays* L.) yield on the semi-arid southern coast of Puerto Rico, 101 (2), 185.
 Nitrogen levels and age at harvest and their effects on the nutritive value and fermentative characteristics of corn (*Zea mays* L.), 101 (1), 79. (Spanish)
- Nutritive value
 Nitrogen levels and age at harvest and their effects on the nutritive value and fermentative characteristics of corn (*Zea mays* L.), 101 (1), 79. (Spanish)
- Ordinary kriging
 Geostatistical analysis for mapping soil salinity in the Lajas Valley Agricultural Reserve, Southwestern Puerto Rico, 101, (1), 1.
- Ovine
 Evaluation of α -amylase and protease on diet nutrient intake and digestibility, and physiological parameters in lambs, 101 (1), 63. (Spanish)
- Paecilomyces*
 Isolation of native entomopathogenic fungi with potential for control of the pepper weevil, *Anthonomus eugeni* Cano, in Puerto Rico, 101 (1), 91. (Spanish)
- Pathogenic variability
 Pathogenic variability of *Pseudocercospora griseola* isolates from two provinces of Ecuador, 101 (1), 107. (Spanish)
- Pepper
 Isolation of native entomopathogenic fungi with potential for control of the pepper weevil, *Anthonomus eugeni* Cano, in Puerto Rico, 101 (1), 91. (Spanish)
- Pepper weevil
 Isolation of native entomopathogenic fungi with potential for control of the pepper weevil, *Anthonomus eugeni* Cano, in Puerto Rico, 101 (1), 91. (Spanish)
- Phaseolus vulgaris* (See Beans)
- Pineapple
 Pineapple growth and yield response to fertilizer and drip irrigation management, 101 (2), 203.
- Plant disease
 Pathogenic variability of *Pseudocercospora griseola* isolates from two provinces of Ecuador, 101 (1), 107. (Spanish)
Pseudocercospora griseola (See Angular leaf spot)

Puerto Rico

100 years of *The Journal of Agriculture of the University of Puerto Rico*, 1917 – 2017, 101 (1), 159.

Analysis of the Family Markets in Puerto Rico, 2014, 101 (1), 143. (Spanish)

Biological control of insect pests in Puerto Rico, 101 (SI #2), 153.

Caloric contribution of imported and locally produced food in Puerto Rico, 101 (1), 121. (Spanish)

Checklist of the Acarina of Puerto Rico, 101 (SI #2), 61.

Contributions of entomologists and a taxonomical bibliography of insects and other arthropods in Puerto Rico, 101 (SI #2), 33.

Ecology of soil arthropod fauna in tropical forests: A review of studies from Puerto Rico, 101 (SI #2), 185.

Effect of chronological age and sex on tenderness and juiciness of beef cattle raised in Puerto Rico, 101 (1), 35. (Spanish)

Effect of sex and animal type on quality characteristics of beef from cattle with eight permanent incisors in Puerto Rico, 101 (1), 51. (Spanish)

Geostatistical analysis for mapping soil salinity in the Lajas Valley Agricultural Reserve, Southwestern Puerto Rico, 101, (1), 1.

Incidence of exercise-induced pulmonary hemorrhage in racehorses in Puerto Rico, 101 (2), 237.

Nitrogen fertilizer rate for improving inbred maize (*Zea mays* L.) yield on the semi-arid southern coast of Puerto Rico, 101 (2), 185.

Partial inventory of the insect species introduced in Puerto Rico from 1980 to 2015, 101 (SI #2), 165. (Spanish)

Performance of 'Tahiti' lime (*Citrus latifolia* Tan) grafted onto five citrus rootstocks in two production areas of Puerto Rico, 101 (2), 225. (Spanish)

Pulmonary hemorrhage

Incidence of exercise-induced pulmonary hemorrhage in racehorses in Puerto Rico, 101 (2), 237.

Racehorses

Incidence of exercise-induced pulmonary hemorrhage in racehorses in Puerto Rico, 101 (2), 237.

Senepol cattle

Comparing body dimensions between normal and double muscled Senepol heifers, 101 (1), 17. (Spanish)

Silage

Nitrogen levels and age at harvest and their effects on the nutritive value and fermentative characteristics of corn (*Zea mays* L.), 101 (1), 79. (Spanish)

Soil ecology

Ecology of soil arthropod fauna in tropical forests: A review of studies from Puerto Rico, 101 (SI #2), 185.

Soil salinity

Geostatistical analysis for mapping soil salinity in the Lajas Valley Agricultural Reserve, Southwestern Puerto Rico, 101, (1), 1.

Soil sodicity

Geostatistical analysis for mapping soil salinity in the Lajas Valley Agricultural Reserve, Southwestern Puerto Rico, 101, (1), 1.

Tahiti lime

Performance of 'Tahiti' lime (*Citrus latifolia* Tan) grafted onto five citrus rootstocks in two production areas of Puerto Rico, 101 (2), 225. (Spanish)

Taxonomic bibliography, insects

Contributions of entomologists and a taxonomical bibliography of insects and other arthropods in Puerto Rico, 101 (SI #2), 33.

Ticks

Checklist of the Acarina of Puerto Rico, 101 (SI #2), 61.

Transgenic corn

Nitrogen levels and age at harvest and their effects on the nutritive value and fermentative characteristics of corn (*Zea mays* L.), 101 (1), 79. (Spanish)

Xylella fastidiosa

Diversity of endophytic bacteria from

Citrus and *Inga* trees in the coffee
agro-ecosystem and fluctuations by

location, shade management and
season, 101 (2), 165.

Zea mays (See Corn)
