

INDEX TO VOLUME 104 (2020)

SUBJECTS

J. Agric. Univ. P.R. 104 (2):245-248 (2020)

- Accelerometer
Evaluation of a commercial accelerometer for remote monitoring of lying and standing events in dairy calves in Puerto Rico, 104 (1), 31.
- Ananas comosus* (See Pineapple)
- Aquatic vegetation
Assessment at Portugués and Cerrillos reservoirs, Puerto Rico, 104 (2), 17.
- Alfalfa
Models of laboratory mini-silos to study the fermentation of wilted alfalfa (*Medicago sativa*) using a homolactic bacterial inoculant, 104 (2), 223.
- Beans
Contributions in Puerto Rico to bean, *Phaseolus* spp., research, 104 (1), 43.
- Citrus sinensis* L. (See Orange)
- Citrus
Response of 'Rhode Red Valencia' orange (*Citrus sinensis*) to microirrigation in Adjuntas, Puerto Rico, 104 (2), 129.
- Coffea arabica* L. (See Coffee)
- Coffee
Identifying interspecific lines of coffee resistant to *Hemileia vastatrix* Berk. et Br. and evaluating their adaptability to the coffee growing region of Puerto Rico, 104 (2), 165.
- Confinement, lambs
Feeding systems and productive and physiological parameters of lambs raised under heat stress, 104 (2), 181. (Spanish)
- Conservation, forest
Willingness to pay for the conservation of an urban forest at the Montaña farm, Aguadilla, Puerto Rico, 104 (2), 113. (Spanish)
- Contingent valuation
Willingness to pay for the conservation of an urban forest at the Montaña farm, Aguadilla, Puerto Rico, 104 (2), 113. (Spanish)
- Dairy calves
Evaluation of a commercial accelerometer for remote monitoring of lying and standing events in dairy calves in Puerto Rico, 104 (1), 31.
- Fall armyworm
Population fluctuation of *Spodoptera frugiperda* (J.E. Smith) (Lepidoptera: Noctuidae) in sorghum cultivation in Southern Anzoategui, Venezuela, 104 (1), 1. (Spanish)
- Forage, fermentation
Models of laboratory mini-silos to study the fermentation of wilted alfalfa (*Medicago sativa*) using a homolactic bacterial inoculant, 104 (2), 223.
- Fungal pathogens
Of mango (*Mangifera indica* L.) inflorescences, 104 (2), 139.
Identifying interspecific lines of coffee resistant to *Hemileia vastatrix* Berk. et Br. and evaluating their adaptability to the coffee growing region of Puerto Rico, 104 (2), 165.
- Giant sensitive plant
Growth and development of giant sensitive plant (*Mimosa pigra* L.) in eastern Puerto Rico, 104 (1), 23. (Spanish)

Grazing, lambs

- Feeding systems and productive and physiological parameters of lambs raised under heat stress, 104 (2), 181. (Spanish)

Heat stress

- Feeding systems and productive and physiological parameters of lambs raised under, 104 (2), 181. (Spanish)

Herbicides

- Weeds in pineapple cv. MD-2 and its control with herbicides and *Spathodea campanulata* mulch, 104 (2), 233. (Spanish)

Homolactic bacterial inoculant

- Models of laboratory mini-silos to study the fermentation of wilted alfalfa (*Medicago sativa*) using a homolactic bacterial inoculant, 104 (2), 223.

Inflorescences

- Fungal pathogens of mango (*Mangifera indica* L.) inflorescences, 104 (2), 139.

Insects

- Population fluctuation of *Spodoptera frugiperda* (J.E. Smith) (Lepidoptera: Noctuidae) in sorghum cultivation in Southern Anzoategui, Venezuela, 104 (1), 1. (Spanish)

Irrigation, microirrigation

- Response of 'Rhode Red Valencia' orange (*Citrus sinensis*) to microirrigation in Adjuntas, Puerto Rico, 104 (2), 129.

Lambs, native

- Feeding systems and productive and physiological parameters of lambs raised under heat stress, 104 (2), 181. (Spanish)
- Weight gain, carcass characteristics, and meat quality of native lambs fed in confinement with total rations, 104 (2), 201. (Spanish)

Mangifera indica L. (See Mango)

Mango

- Fungal pathogens of mango (*Mangifera indica* L.) inflorescences, 104 (2), 139.

Medicago sativa (See Alfalfa)

Mimosa pigra L. (See Giant sensitive plant)

Mulch

- Weeds in pineapple cv. MD-2 and its control with herbicides and *Spathodea campanulata* mulch, 104 (2), 233. (Spanish)

Necrosis

- Fungal pathogens of mango (*Mangifera indica* L.) inflorescences, 104 (2), 139.

Oranges

- Response of 'Rhode Red Valencia' orange (*Citrus sinensis*) to microirrigation in Adjuntas, Puerto Rico, 104 (2), 129.

Pineapple

- Weeds in pineapple cv. MD-2 and its control with herbicides and *Spathodea campanulata* mulch, 104 (2), 233. (Spanish)

Phaseolus vulgaris (See Beans)

Phytophagous

- Population fluctuation of *Spodoptera frugiperda* (J.E. Smith) (Lepidoptera: Noctuidae) in sorghum cultivation in Southern Anzoategui, Venezuela, 104 (2), 1. (Spanish)

Powdery mildew

- Fungal pathogens of mango (*Mangifera indica* L.) inflorescences, 104 (2), 139.

Puerto Rico

- Aquatic vegetation assessment at Portugués and Cerrillos reservoirs, Puerto Rico, 104 (1), 17.
- Contributions in Puerto Rico to bean, *Phaseolus* spp., research, 104 (1), 43.
- Feeding systems and productive and physiological parameters of lambs

- raised under heat stress, 104 (2), 181. (Spanish)
- Growth and development of giant sensitive plant (*Mimosa pigra* L.) in eastern Puerto Rico, 104 (1), 23. (Spanish)
- Evaluation of a commercial accelerometer for remote monitoring of lying and standing events in dairy calves in Puerto Rico, 104 (1), 31.
- Identifying interspecific lines of coffee resistant to *Hemileia vastatrix* Berk. et Br. and evaluating their adaptability to the coffee growing region of Puerto Rico, 104 (2), 165.
- Response of 'Rhode Red Valencia' orange (*Citrus sinensis*) to microirrigation in Adjuntas, Puerto Rico, 104 (2), 129.
- Willingness to pay for the conservation of an urban forest at the Montaña farm, Aguadilla, Puerto Rico, 104 (2), 113. (Spanish)
- Weeds in pineapple cv. MD-2 and its control with herbicides and *Spathodea campanulata* mulch, 104 (2), 233. (Spanish)
- Weight gain, carcass characteristics, and meat quality of native lambs fed in confinement with total rations, 104 (2), 201. (Spanish)
- Rations, total, for lambs
- Weight gain, carcass characteristics, and meat quality of native lambs fed in confinement with total rations, 104 (2), 201. (Spanish)
- Remote monitoring
- Evaluation of a commercial accelerometer for remote monitoring of lying and standing events in dairy calves in Puerto Rico, 104 (1), 31.
- Research
- Contributions in Puerto Rico to bean, *Phaseolus* spp., research, 104 (1), 43.
- Reservoirs
- Aquatic vegetation assessment at Portugués and Cerrillos reservoirs, Puerto Rico, 104 (1), 17.
- Sheep
- Feeding systems and productive and physiological parameters of lambs raised under heat stress, 104 (2), 181. (Spanish)
- Weight gain, carcass characteristics, and meat quality of native lambs fed in confinement with total rations, 104 (2), 201. (Spanish)
- Silos, mini
- Models of laboratory mini-silos to study the fermentation of wilted alfalfa (*Medicago sativa*) using a homolactic bacterial inoculant, 104 (2), 223.
- Sorghum
- Population fluctuation of *Spodoptera frugiperda* (J.E. Smith) (Lepidoptera: Noctuidae) in sorghum cultivation in Southern Anzoátegui, Venezuela, 104 (1), 1. (Spanish)
- Soil-water tension
- Response of 'Rhode Red Valencia' orange (*Citrus sinensis*) to microirrigation in Adjuntas, Puerto Rico, 104 (2), 129.
- Spodoptera frugiperda* (See Fall armyworm)
- Tip blight
- Fungal pathogens of mango (*Mangifera indica* L.) inflorescences, 104 (2), 139.
- Venezuela
- Population fluctuation of *Spodoptera frugiperda* (J.E. Smith) (Lepidoptera: Noctuidae) in sorghum cultivation in Southern Anzoátegui, Venezuela, 104 (1), 1. (Spanish)
- Weeds
- Aquatic vegetation assessment at Portugués and Cerrillos reservoirs, Puerto Rico, 104 (1), 17.
- Growth and development of giant sensitive plant (*Mimosa pigra* L.) in eastern Puerto Rico, 104 (1), 23. (Spanish)
- Weeds in pineapple cv. MD-2 and its control with herbicides and *Spath-*

- odea campanulata* mulch, 104 (2), 233. (Spanish)
- Water reservoirs
- Aquatic vegetation assessment at Portugués and Cerrillos reservoirs, Puerto Rico, 104 (1), 17.
 - Willingness to pay
 - For the conservation of an urban forest at the Montaña farm, Aguadilla, Puerto Rico, 104 (2), 113. (Spanish)
