

# INDEX TO VOLUME 95 (2011)

## SUBJECTS

**J. Agric. Univ. P.R. 95 (3-4): (2011)**

*Allium cepa* (See Onion)

*Alternaria* spp.

Implicated in a disease complex of onion leaf blight in the tropics, 95 (1-2), 57.

American soybean rust

Phylogenetic analyses of eight isolates of *Phakopsora meibomia* collected in Puerto Rico, 95 (1-2), 45.

Asian lime swallowtail

*Forcipomyia eriophora* Williston (Diptera: Ceratopogonidae) a new ectoparasite of *Papilio demoleus* L. (Lepidoptera: Papilionidae) in Puerto Rico, 95 (3-4), 233. (Spanish)

Avocado

Relationship between skin color and some fruit quality characteristics of 'Hass' avocado, 95 (1-2), 15.

Beans

Release of 'Beníquez' white bean (*Phaseolus vulgaris* L.) cultivar, 95 (3-4), 237.

*Cajanus cajan* (See Pigeon Pea)

*Calathea allouia* (See Leren)

*Calliandra calothyrsus* Meisn.

Agronomical characteristics and chemical composition of, 95 (1-2), 99. (Spanish)

*Capsicum* spp. (See Peppers)

Chicken manure

As soil amendment: Effect on yield and foliar nutrient content of tanager, and on chemical properties of the soil, 95 (3-4), 211. (Spanish)

*Citrus sinensis* (L) Osb. (See Oranges)

*Clinodiplosis capsici*

A new pest in sweet peppers and peppers (*Capsicum* sp.: Solanaceae) in Puerto Rico, 95 (1-2), 85. (Spanish)

Corn

Botanical composition, yield and fermentative characteristics of lablab (*Lablab purpureus* L.) and sunn hemp (*Crotalaria juncea* L.) with yellow corn (*Zea mays* L.) for silage production, 95 (3-4), 133. (Spanish)

Silage from high protein value white corn (*Zea mays* L.) with and without ears associated with two annual legumes, lablab (*Lablab purpureus* L.) and sunn hemp (*Crotalaria juncea* L.), 95 (3-4), 151. (Spanish)

Corn, sweet

Release of sweet corn (*Zea mays* L.) open-pollinated cultivar 'Sure-sweet 2011', 95 (1-2), 105.

Cover crops

Planting season and date of harvest affect biomass production and nitrogen contribution of *Crotalaria juncea* L. 'Tropic Sun' in southwestern Puerto Rico, 95 (3-4), 169. (Spanish)

Season and date of harvest effect on dry matter yield of sunn hemp (*Crotalaria juncea* L.) 'Tropic Sun' in northwestern Puerto Rico, 95 (3-4), 179. (Spanish)

*Cratylia argentea* (Desv.) Kuntze

Agronomical characteristics and chemical composition of, 95 (1-2), 99. (Spanish)

- Crotalaria juncea* L. (See Sunn hemp)
- Cultivar release
- Release of 'Pujols': a tropical-type sweet potato, 95 (1-2), 111.
  - Release of sweet corn (*Zea mays* L.) open-pollinated cultivar 'Sure-sweet 2011', 95 (1-2), 105.
  - Release of 'Beníquez' white bean (*Phaseolus vulgaris* L.) cultivar, 95 (3-4), 237.
- Dioscorea trifida* L. (See Yam)
- Forages
- Cutting intervals affect yield and nutritive value of *Hibiscus rosa-sinensis* and *Morus alba*, 95 (1-2), 93. (Spanish)
- Forcipomyia eriophora* Williston
- A new ectoparasite of *Papilio demoleus* L. (Lepidoptera: Papilionidae) in Puerto Rico, 95 (3-4), 233. (Spanish)
- Fungi
- Alternaria* spp. implicated in a disease complex of onion leaf blight in the tropics, 95 (1-2), 57.
  - Phylogenetic analyses of eight isolates of *Phakopsora meibomia* collected in Puerto Rico, 95 (1-2), 45.
- Hibiscus rosa-sinensis*
- Cutting intervals affect yield and nutritive value of *Morus alba* and, 95 (1-2), 93. (Spanish)
- Insects
- Clinodiplosis capsici* (Diptera: Cecidomyiidae): A new pest in sweet peppers and peppers (*Capsicum* sp.: Solanaceae) in Puerto Rico, 95 (1-2), 85. (Spanish)
  - Forcipomyia eriophora* Williston (Diptera: Ceratopogonidae) a new ectoparasite of *Papilio demoleus* L. (Lepidoptera: Papilionidae) in Puerto Rico, 95 (3-4), 233. (Spanish)
  - Toxicity of plant extracts for control of *Trialeurodes vaporariorum* W. (Homoptera: Aleyrodidae) in laboratory and greenhouse tomatoes, 95 (3-4), 117. (Spanish)
- Invasive species
- Clinodiplosis capsici* (Diptera: Cecidomyiidae): A new pest in sweet peppers and peppers (*Capsicum* sp.: Solanaceae) in Puerto Rico, 95 (1-2), 85. (Spanish)
  - Forcipomyia eriophora* Williston (Diptera: Ceratopogonidae) a new ectoparasite of *Papilio demoleus* L. (Lepidoptera: Papilionidae) in Puerto Rico, 95 (3-4), 233. (Spanish)
- Ipomoea batatas* (See sweet potato)
- Irrigation
- Yield of mapuey yam (*Dioscorea trifida* L.) varying the use of irrigation and weight of propagation material, 95 (1-2), 89. (Spanish)
- Lablab
- Botanical composition, yield and fermentative characteristics of sunn hemp (*Crotalaria juncea* L.) and, with yellow corn (*Zea mays* L.) for silage production, 95 (3-4), 133. (Spanish)
  - Silage from high protein value white corn (*Zea mays* L.) with and without ears associated with two annual legumes, sunn hemp (*Crotalaria juncea* L.) and, 95 (3-4), 151. (Spanish)
- Leaf blight
- Alternaria* spp. implicated in a disease complex of onion leaf blight in the tropics, 95 (1-2), 57.
- Legumes
- Agronomic characteristics and nutritive value of pigeon pea harvested at different stages of maturity 95 (3-4), 193.
  - Agronomical characteristics and chemical composition of three shrub legumes: *Cratylia argentea* (Desv.) Kuntze, *Calliandra calothyrsus* Meisn. and *Leucaena leucocephala* (Lam.) de Wit, 95 (1-2), 99. (Spanish)
  - Botanical composition, yield and fermentative characteristics of lablab

- (*Lablab purpureus* L.) and sunn hemp (*Crotalaria juncea* L.) with yellow corn (*Zea mays* L.) for silage production, 95 (3-4), 133. (Spanish)
- Planting season and date of harvest affect biomass production and nitrogen contribution of *Crotalaria juncea* L. 'Tropic Sun' in southwestern Puerto Rico, 95 (3-4), 169. (Spanish)
- Season and date of harvest effect on dry matter yield of sunn hemp (*Crotalaria juncea* L.) 'Tropic Sun' in northwestern Puerto Rico, 95 (3-4), 179. (Spanish)
- Silage from high protein value white corn (*Zea mays* L.) with and without ears associated with two annual legumes, lablab (*Lablab purpureus* L.) and sunn hemp (*Crotalaria juncea* L.), 95 (3-4), 151. (Spanish)
- Leren
- Production and partitioning of dry matter in, 95 (1-2), 35.
- Leucaena leucocephala* (Lam.) de Wit
- Agronomical characteristics and chemical composition of, 95 (1-2), 99. (Spanish)
- Musa* sp. (See Plantain)
- Onion
- Alternaria* spp. implicated in a disease complex of onion leaf blight in the tropics, 95 (1-2), 57.
- Oranges
- Production and quality of 'Hamlin' [*Citrus sinensis* (L) Osb.] grown on four rootstocks at three locations in Puerto Rico, 95 (1-2), 25. (Spanish)
- Papilio demoleus* L. (See Asian lime swallow-tail)
- Peppers
- Clinodiplosis capsici* (Diptera: Cecidomyiidae): A new pest in sweet peppers and peppers (*Capsicum* sp.: Solanacea) in Puerto Rico, 95 (1-2), 85. (Spanish)
- Persea americana* (See Avocado)
- Phakopsora meibomia* (See American soybean rust)
- Phaseolus vulgaris* L. (See Beans)
- Phosphorus
- Retention in drainage soils of commercial greenhouses, 95 (1-2), 1.
- Pigeon pea
- Agronomic characteristics and nutritive value of, harvested at different stages of maturity 95 (3-4), 193.
- Plant, diseases
- Alternaria* spp. implicated in a disease complex of onion leaf blight in the tropics, 95 (1-2), 57.
- Releases
- Release of 'Pujols': A tropical-type sweet potato, 95 (1-2), 111.
- Release of sweet corn (*Zea mays* L.) open-pollinated cultivar 'Sure-sweet 2011', 95 (1-2), 105.
- Release of 'Beniquez' white bean (*Phaseolus vulgaris* L.) cultivar, 95 (3-4), 237.
- Rootstocks
- Production and quality of 'Hamlin' [*Citrus sinensis* (L) Osb.] grown on four rootstocks at three locations in Puerto Rico, 95 (1-2), 25. (Spanish)
- Silage
- Botanical composition, yield and fermentative characteristics of lablab (*Lablab purpureus* L.) and sunn hemp (*Crotalaria juncea* L.) with yellow corn (*Zea mays* L.), 95 (3-4), 133. (Spanish)
- Soil, amendment
- Chicken manure: Effect on yield and foliar nutrient content of tanager, and on chemical properties of the soil, 95 (3-4), 211. (Spanish)
- Soil retention
- Of phosphorus in drainage soils of commercial greenhouses, 95 (1-2), 1.
- Sugar content
- Sugars and alcohol insoluble solids assessment for sweet potato culti-

- vars recommended for Puerto Rico, 95 (3-4), 223.
- Sunn hemp  
 Botanical composition, yield and fermentative characteristics of lablab and, with yellow corn (*Zea mays* L.) for silage production, 95 (3-4), 133. (Spanish)  
 Planting season and date of harvest effect on biomass production and nitrogen contribution of *Crotalaria juncea* L. 'Tropic Sun' in southwestern Puerto Rico, 95 (3-4), 169. (Spanish)  
 Season and date of harvest affect dry matter yield of sunn hemp (*Crotalaria juncea* L.) 'Tropic Sun' in northwestern Puerto Rico, 95 (3-4), 179. (Spanish)  
 Silage from high protein value white corn (*Zea mays* L.) with and without ears associated with two annual legumes, lablab (*Lablab purpureus* L.) and, 95 (3-4), 151. (Spanish)
- Sweet potato  
 Release of Pujols': a tropical-type sweet potato, 95 (1-2), 111.  
 Sugars and alcohol insoluble solids assessment for sweet potato cultivars recommended for Puerto Rico, 95 (3-4), 223.
- Tanier  
 Chicken manure as soil amendment: Effect on yield and foliar nutrient content of tanier, and on chemical properties of the soil, 95 (3-4), 211. (Spanish)
- Taro  
 Performance of blight-tolerant genotypes of taro (*Colocasia esculenta*) under upland conditions, 95 (1-2), 79.
- Tomato  
 Toxicity of plant extracts for control of *Trialeurodes vaporariorum* W. (Homoptera: Aleyrodidae) in laboratory and greenhouse tomatoes, 95 (3-4), 117. (Spanish)
- Trialeurodes vaporariorum* W. (See Whitefly)
- Whitefly  
 Toxicity of plant extracts for control of *Trialeurodes vaporariorum* W. (Homoptera: Aleyrodidae) in laboratory and greenhouse tomatoes, 95 (3-4), 117. (Spanish)
- Xanthosoma* spp. (See Tanier)
- Yam  
 Yield of mapuey yam (*Dioscorea trifida* L.) varying the use of irrigation and weight of propagation material, 95 (1-2), 89. (Spanish)
- Zea mays* L. (See Corn)
