

# INDEX TO VOLUME 88 (2004)

## SUBJECTS

**J. Agric. Univ. P.R. 88(3-4):177-178 (2004)**

- Allium cepa* (See Onion)
- Bacterial blight  
Release of five common bean germplasm lines resistant to, 88(1-2), 91.
- Bean  
Selection protocols for yield and stress tolerance, 88(1-2), 27.  
Inheritance of web blight resistance, 88(1-2), 45.  
Release of five germplasm lines resistant to common bacterial blight, 88(1-2), 91.  
General combining ability effects for reproductive heat tolerance in snap bean, 88(3-4), 161.
- Breeding  
Selection protocols for yield and stress tolerance in common bean, 88(1-2), 27.  
Release of five common bean germplasm lines resistant to common bacterial blight, 88(1-2), 91.  
General combining ability effects for reproductive heat tolerance in snap bean, 88(3-4), 161.
- Cajanus cajan* (See Pigeon pea)
- Carica papaya* (See Papaya)
- Cattle  
Dry cow acceptance of liquid supplements based on Synermax® with addition of an anionic salt, 88(3-4), 165.
- Chicken, manure  
Yield and yield components of papaya fertilized with, 88(3-4), 123.
- Coefficient, pan evaporation  
Re-evaluation of, in Puerto Rico, 88(3-4), 109.
- Corn, sweet  
Soil conditioner efficacy on production of, 88(3-4), 97.
- Crop water use  
Re-evaluation of pan evaporation coefficients in Puerto Rico, 88(3-4), 109.
- Disease, screening techniques  
Inheritance of web blight resistance in common bean, 88(1-2), 45.
- Evapotranspiration  
Re-evaluation of pan evaporation coefficients in Puerto Rico, 88(3-4), 109.
- Feed  
Inclusion of a fermented fish by-product meal in diets of guinea fowl, 88(3-4), 145.  
Dry cow acceptance of liquid supplements based on Synermax® with addition of an anionic salt, 88(3-4), 165.
- Feed, restriction  
Light program and, during the rearing of out-of-season pullets, 88(3-4), 135.
- Fermented fish by-product  
Inclusion of, in diet of guinea fowl, 88(3-4), 145.
- Fungi  
Associated with onion, in southern Puerto Rico, 88(1-2), 55. (Spanish)  
Mucor foliar spot and mycoflora in stem and root lesions of peach, 88(3-4), 155.
- Fungicide  
Chlorothalonil in management of foliar diseases of pigeon pea, 88(3-4), 169.
- General combining ability  
For reproductive heat tolerance in snap bean, 88(3-4), 161.
- Guava  
Management of stockplant for in vitro culture of nodal segments of, 88(1-2), 73. (Spanish)
- Guinea fowl  
Inclusion of a fermented fish by-product meal in diets of, 88(3-4), 145.
- Heat, tolerance  
General combining ability effects for reproductive heat tolerance in snap bean, 88(3-4), 161.

- Heritability  
 Inheritance of web blight resistance in common bean, 88(1-2), 45.
- In vitro culture  
 Management of stockplant for, of nodal segments of guava, 88(1-2), 73. (Spanish)
- Irrigation, drip  
 Yield of papaya irrigated with fractions of Class A pan evaporation, 88(1-2), 1.  
 Re-evaluation of pan evaporation coefficients in Puerto Rico, 88(3-4), 109.
- Manure  
 Yield and yield components of papaya fertilized with, 88(3-4), 123.
- Microbial biomass  
 Vegetation influence on soil quality in a highly degraded tropical soil, 88(1-2), 11.
- Mucor foliar spot  
 In stem and root lesions of peach, 88(3-4), 155.
- Mycoflora  
 In stem and root lesions of peach, 88(3-4), 155.
- Nodal segments  
 Management of stockplant for in vitro culture of, of guava, 88(1-2), 73. (Spanish)
- Onion  
 Fungi associated with, in southern Puerto Rico, 88(1-2), 55. (Spanish)
- Pan evaporation  
 Yield of papaya irrigated with fractions of, 88(1-2), 1.  
 Coefficients, re-evaluation of, in Puerto Rico, 88(3-4), 109.
- Papaya  
 Yield of, when irrigated with fractions of Class A pan evaporation, 88(1-2), 1.  
 Yield and yield components of, 88(3-4), 123.
- Peach  
 Mucor foliar spot and mycoflora in stem and root lesions of, 88(3-4), 155.
- Phaseolus vulgaris* (See Bean)
- Pigeon pea  
 Chlorothalonil in management of foliar diseases of, 88(3-4), 169.
- Poultry  
 Light program and feed restriction during the rearing of out-of-season pullets, 88(3-4), 135.  
 Inclusion of a fermented fish by-product meal in guinea fowl diets, 88(3-4), 145.
- Prunus persica* (See Peach)
- Psidium guajava* (See Guava)
- Pullets  
 Light program and feed restriction during the rearing of, 88(3-4), 135.
- Rhizoctonia solani* (See Web blight)
- Soil  
 Soil conditioner efficacy on Lajas Valley sweet corn production, 88(3-4), 97.  
 Vegetation influence on quality of, in a highly degraded tropical soil, 88(1-2), 11.
- Stress tolerance  
 Selection protocols for yield and stress tolerance in common bean, 88(1-2), 27.
- Supplements  
 Dry cow acceptance of liquid supplements based on Synermax® with addition of an anionic salt, 88(3-4), 165.
- Thanatephorus cucumeris* (See Web blight)
- Tissue culture  
 Management of stockplant for in vitro culture of nodal segments of guava, 88(1-2), 73. (Spanish)
- Tropical soil  
 Vegetation influence on soil quality in a highly degraded, 88(1-2), 11.
- Web blight  
 Inheritance of resistance to, in common bean, 88(1-2), 45.
- Xanthomonas campestris* pv. *phaseoli* (See Bacterial blight)
- Zea mays* (See Corn)
