

INDEX TO VOLUME 97 (2013)

SUBJECTS

J. Agric. Univ. P.R. 97 (3-4):195-196 (2013)

- Averrhoa carambola* L. (See Carambola)
- Beef
Quality and chemical composition of, from cattle of two age groups in Puerto Rico, 97 (1-2), 57. (Spanish)
- Bud rot
Fusarium spp. associated with, of oil palm (*Elaeis guineensis* Jacq.) in Ecuador, 97 (3-4), 135. (Spanish)
- Candidatus Liberibacter asiaticus*
Dissemination of Citrus Greening in Puerto Rico, 97 (3-4), 119.
- Carambola
A comparison of the morphological and physicochemical characteristics of ten carambola cultivars, 97 (3-4), 171.
- Cattle
Quality and chemical composition of beef from cattle of two age groups in Puerto Rico, 97 (1-2), 57. (Spanish)
- Citrus
Release of citrus rootstock 'Swingle Citrumelo', 'Carrizo' and HRS 812 for use in Puerto Rico, 97 (1-2), 101. (Spanish)
Dissemination of Citrus Greening in Puerto Rico, 97 (3-4), 119.
- Citrus Greening*
Dissemination of, in Puerto Rico, 97 (3-4), 119.
- Compost
Chemical and physical properties of two weathered soils mixed with, 97 (1-2), 81.
- Cows (Dairy)
Pre-partum voluntary consumption of hay by dry cows when limiting concentrate supplementation according to body condition, 97 (1-2), 75. (Spanish)
- Cucurbita moschata* (See Pumpkin)
- Cultivar release
Release of tropical pumpkin 'Taína Dorada', 97 (1-2), 97.
Release of citrus rootstock 'Swingle Citrumelo', 'Carrizo' and HRS 812 for use in Puerto Rico, 97 (1-2), 101. (Spanish)
- Dry matter yield
And nutritive characteristics of Napier grass cultivars evaluated under low fertility conditions at 90-day intervals, 97 (3-4), 185. (Spanish)
- Fertilization
Dry matter yield and nutritive characteristics of napier grass cultivars evaluated under low fertility conditions at 90-day intervals, 97 (3-4), 185. (Spanish)
- Fertilizer
Trends in consumption of, in Puerto Rico, 97 (1-2), 15.
- Fruits
A comparison of the morphological and physicochemical characteristics of ten carambola cultivars, 97 (3-4), 171.
- Fulgoroidea
Survey of, associated with palms in Puerto Rico, 97 (3-4), 107.
- Fusarium* spp.
Associated with bud rot of oil palm (*Elaeis guineensis* Jacq.) in Ecuador, 97 (3-4), 135. (Spanish)

Grasses

Effects of application of microbial inoculants on fermentation characteristics, aerobic stability, and voluntary intake of silage of native tropical grasses, 97 (1-2), 33. (Spanish)

Dry matter yield and nutritive characteristics of Napier grass cultivars evaluated under low fertility conditions at 90-day intervals, 97 (3-4), 185. (Spanish)

Insects

Survey of palm-associated Fulgoroidea in Puerto Rico, 97 (3-4), 107.

Microbial inoculants

Effects of application of microbial inoculants on fermentation characteristics, aerobic stability, and voluntary intake of silage of native tropical grasses, 97 (1-2), 33. (Spanish)

Musa spp.

Amending storage vessel and media increase transfer interval of tissue culture plantlets of, 97 (1-2), 1.

Napier grass

Dry matter yield and nutritive characteristics of cultivars evaluated under low fertility conditions at 90-day intervals, 97 (3-4), 185. (Spanish)

Oil palm

Fusarium spp. associated with bud rot of (*Elaeis guineensis* Jacq.) in Ecuador, 97 (3-4), 135. (Spanish)

Organic farming

Yield and quality performance of open pollinated and hybrid tomato cultivars grown under organic management in Puerto Rico, 97 (3-4), 149.

Palms

Survey of palm-associated Fulgoroidea in Puerto Rico, 97 (3-4), 107.

Pumpkin

Release of tropical pumpkin 'Taina Dorada', 97 (1-2), 97.

Silage

Effects of application of microbial inoculants on fermentation characteristics, aerobic stability, and voluntary intake of silage of native tropical grasses, 97 (1-2), 33. (Spanish)

Tamarind

Breaking seed coat dormancy with physical and chemical methods in seeds of, 97 (1-2), 87.

Tamarindus indica (See Tamarind)

Tissue culture

Amending storage vessel and media increase transfer interval of *Musa* spp. tissue culture plantlets, 97 (1-2), 1.

Tomato

Yield and quality performance of open pollinated and hybrid cultivars grown under organic management in Puerto Rico, 97 (3-4), 149.

Yield response of four beefsteak tomato cultivars in the U.S. Virgin Islands, 97 (3-4), 181.

Tropical fruits

A comparison of the morphological and physicochemical characteristics of ten carambola cultivars, 97 (3-4), 171.

Voluntary consumption

Of hay, by dry cows when limiting concentrate supplementation according to body condition, 97 (1-2), 75. (Spanish)

Weathered soils

Chemical and physical properties of, when mixed with compost, 97 (1-2), 81.
