

INDEX TO VOLUME 82 (1998)

SUBJECTS

J. Agric. Univ. 82(3-4):229-231 (1998)

- Acarus (See *Schizotetranychus oryzae*)
- Anthracnose
In pigeonpea long-day trials, 82 (3-4), 209.
- Beetle, leaf (See Leaf beetle)
- Bermuda grass
Fertilizer rates, yield and quality of grass hays, 82(1-2), 17.
- Brassica oleracea* (See Cabbage)
- Burkholderia cepacia*
Cause of bacterial blotch of oyster mushroom, 82(1-2), 109.
- Butterfly pea
Chemical composition and in vitro digestibility, in diets based on tropical grasses, 82(1-2), 25. (Spanish)
- Cabbage
Response in the mountainous and coastal areas of Puerto Rico, 82(1-2), 113.
- Cacao
Early yield of five families, 82(3-4), 163.
- Cajanus cajan* (See Pigeonpea)
- Capsicum annuum* (See Pepper)
- Carica papaya* (See Papaya)
- Centrosema pubescens* (See Butterfly pea)
- Ceratiomyxa fruticulosa* (See Myxomycetes)
- Coleoptera: Chrysomelidae
Chromosome numbers in 71 Puerto Rican species of leaf beetles, 82(1-2), 69.
- Colletotrichum gloesporioides* (See Anthracnose)
- Cribaria intricata* (See Myxomycetes)
- Cynodon dactylon* (See Bermuda grass)
- Cynodon nlenfuensis* (See Star grass)
- Dictyidium cancellatum* (See Myxomycetes)
- Digitaria decumbens* (See Pangola grass)
- Digitaria eriantha*
Fertilizer rates, yield and quality of grass hays, 82(1-2), 17.
- Dolichothrips indicus*
New report in pepper and eggplant, 82(1-2), 111. (Spanish)
- Dry root rot
Sclerotium rolfsii as a component in the pathological complex causing, 82(1-2), 85. (Spanish)
- Eggplant
Dolichothrips indicus (Hood), new report in, 82(1-2), 111. (Spanish)
Population dynamics of *Thrips palmi* in, 82(3-4), 217. (Spanish)
- Elephant grass
Chemical composition and in vitro digestibility, in diets with leguminous forages, 82(1-2), 25. (Spanish)
- Forages
Chemical composition and in vitro digestibility, 82(1-2), 25. (Spanish)
Dry matter intake and nutrient digestibility, 82(1-2), 39. (Spanish)
Agronomic potential of stylo, 82(1-2), 1.
Stem propagation of guinea grass, 82(1-2), 117.
- Fuligo septica* (See Myxomycetes)
- Guinea grass
Chemical composition and in vitro digestibility, in diets with leguminous forages, 82(1-2), 25. (Spanish)
Stem propagation at six maturity stages and two cutting heights, 82(1-2), 117.
- Hay, grass
Fertilizer rates, yield and quality in southern Puerto Rico, 82(1-2), 17.
- Hens, Cornish
Diets, energy: protein ratio, 82(1-2), 51. (Spanish)
- Herbicide
Oxyfluorfen in tanier, 82(3-4), 221.
- Leaf beetle
Chromosome numbers in 71 Puerto Rican species, 82(1-2), 69.

- Leucaena leucocephala*
 Chemical composition and in vitro digestibility, in diets based on tropical grasses, 82(1-2), 25. (Spanish)
 Dry matter intake and nutrient digestibility, 82(1-2), 39. (Spanish)
- Lycogala* sp (See Myxomycetes)
- Musa* (See Plantain)
- Mushroom, oyster
 Bacterial blotch caused by *Burkholderia cepacia*, 82(1-2), 109.
- Myxomycetes
 New records from Mona Island, 82(3-4), 189.
- Neonotonia wightii*
 Chemical composition and in vitro digestibility, in diets based on tropical grasses, 82(1-2), 25. (Spanish)
- Oryza sativa* (See Rice)
- Oxyfluorfen
 Efficacy and phytotoxicity in tanier, 82(3-4), 221.
- Pangola grass
 Fertilizer rates, yield and quality of grass hays, 82(1-2), 17.
- Panicum*
 Agronomic comparison of four hybrids and two cultivars at three cutting intervals, 82(3-4), 141.
- Panicum maximum* (See Guinea grass)
- Papaya
 Performance, unaffected by lateral shoot pruning, 82(1-2), 63.
- Paraquat
 Low inhalation exposure when sprayed properly with knapsacks, 82(1-2), 97.
- Pennisetum purpureum* (See Elephant grass)
- Pepper
Dolichthrips indicus (Hood), new report in, 82(1-2), 111. (Spanish)
 Population dynamics of *Thrips palmi* in, 82(3-4), 217. (Spanish)
- Pigeonpea
 Reaction of new long-day genotypes to rust, 82(3-4), 201.
 Incidence of anthracnose in, 82(3-4), 209.
- Plantain, dwarf superplátano
 Yield potential and fruit traits, at three locations, 82(3-4), 173.
- Rice
 Development of *Schizotetranychus oryzae* in, 82(3-4), 183. (Spanish)
 Behavior of *Schizotetranychus oryzae* in nine varieties, 82(3-4), 213. (Spanish)
- Rust
 Reaction of new long-day pigeonpea genotypes to, 82(3-4), 201.
- Schizotetranychus oryzae*
 Behavior in nine rice varieties, 82(3-4), 213. (Spanish)
 Development in rice, 82(3-4), 183. (Spanish)
- Sclerotium rolfsii*
 Component in the pathological complex that causes dry root rot in tanier, 82(1-2), 85. (Spanish)
- Sewage sludge
 Humic acid, evaluation of proton and europium (III) binding reactions in, 82(3-4), 121.
- Solanum melongena* (See Eggplant)
- Sorghum
 Chemical composition and in vitro digestibility, in diets with leguminous forages, 82(1-2), 25. (Spanish)
 Response of forage sorghums Millo Blanco and Greenleaf sudangrass and their hybrids to planting dates, 82(3-4), 151.
- Sorghum bicolor* (See Sorghum)
- Sorghum sudanense* (See Sorghum)
- Star grass
 Chemical composition and in vitro digestibility, in diets with leguminous forages, 82(1-2), 25. (Spanish)
- Stemonitis axifera* (See Myxomycetes)
- Stylo
 Agronomic potential in Puerto Rico, 82(1-2), 1.
 Chemical composition and in vitro digestibility, 82(1-2), 25. (Spanish)
 Dry matter intake and nutrient digestibility, 82(1-2), 39. (Spanish)
- Tanier
 Oxyfluorfen in, 82(3-4), 221.
Sclerotium rolfsii as a component in the pathological complex causing dry root rot, 82(1-2), 85. (Spanish)
- Theobroma cacao* (See Cacao)

Thrips palmi

In eggplant and pepper, 82(3-4), 217.
(Spanish)

Thysanoptera: Phlaeothripidae

Dolichothrips indicus, new report in
pepper and eggplant, 82(1-2), 111.
(Spanish)

Tubifera ferruginosa (See Myxomycetes)

Uredo cajani (See Rust)

Weed, control

Oxyfluorfen in tanager, 82(3-4), 221.

Xanthosoma sagittifolium (See Tanager)
