

INDEX TO VOLUMES 70 THROUGH 73 (1986 to 1989)¹

AUTHORS²

Abreu, E.

1986, The coconut palm Eriophyid mite, *Eriophydes guerreronis* (Keifer) (Acarina: Eriophyidae) in Puerto Rico, 70 (3), 223 (RN).

1987, The insects of nispero [*Manilkara zapota* (L.) P. van Roger] in Puerto Rico, 71 (1), 129 (RN).

*1987, New records of mites for Puerto Rico, 71 (4), 399.

1989, Natural enemies of the melonworm, *Diaphania hyalinata* L. (Lepidoptera: Pyralidae) in Puerto Rico, 73 (4), 313.

Abruña, F.

1986, Effect of straw disposal method and of nitrogen rates on rice yields and recovery of fertilizer nitrogen, 70 (2), 91.

1986, Four nitrogen levels and three water management systems of rice yield and nitrogen recovery, 70 (3), 197.

*Senior author.

†Sole author.

RN Research note.

¹When we published the index for volumes 56 through 69 (years 1972 to 1985) we stated it was our intention to keep our indexes current by publishing annual indexes in the October issue of each volume. We have kept our promise. Some users, however, have expressed that besides an annual index, a multiyear one is more helpful in many instances. Therefore, we are compiling a multiyear index for the balance of the 80s decade that was not included in a previous multiyear index. It covers from 1986 to 1989, volumes 70, 71, 72 and 73. We look forward to compiling a 10-year index in Vol. 83, No. 4 (October 1999) at the end of the next decade.

²An author's name may appear in more than one form. Although all first names are abbreviated, an author may appear with one or two initials. Last names may appear single or compound. When compound, they are hyphenated regardless of how they appear in the original. Alphabetically, names with a single initial precede two-initial ones (Y. Badillo precedes Y. A. Badillo); single names precede hyphenated ones (Abreu Z. precedes Abreu-Abadía A.). Articles under one name are organized chronologically (those in volume I and those in volume II; those in number 1 precede those in number 2 and those on page 1 precede those on page 2).
