<sup>1</sup>An author's name may appear in more than one form. Although all first names are abbreviated, an author may appear with one or two initials. Last names may appear single or compound. When compound, they are hyphenated regardless of how they appear in the original.

<sup>2</sup>Alphabetically, names with a single initial precede two-initial ones (Badillo, Y., precedes Badillo, Y. A.); single names precede hyphenated ones (Abreu, Z. precedes Abreu-Abadía, A.).

Articles under one name are organized chronologically (those in volume I precede those in volume II; those in number 1 precede those in number 2 and those on page 1 precede those on page 2).
